DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-5 and 13-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Yasui et al., U.S. Pub No. 2001/0020560 A1.

Yasui et al. shows, in Figs. 1-6, particularly in Fig. 5, a lubricating system for an engine comprising an oil pump 43, oil filter 44, oil cooler 45, a main gallery 62, and a sub-gallery 61a, wherein the main gallery and the sub-gallery are in parallel with each other and parallel to the axis of rotation of the crankshaft 23.

Allowable Subject Matter

3. Claims 6-12, 16, and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
